

# SIGNELEMENTS

*It's a fantastic investment for any sign shop. We fully back it and we'll be getting a new subscription for sure when our current one runs out.*

- Supplied by experienced and creative wrap designers

# Advanced Functions

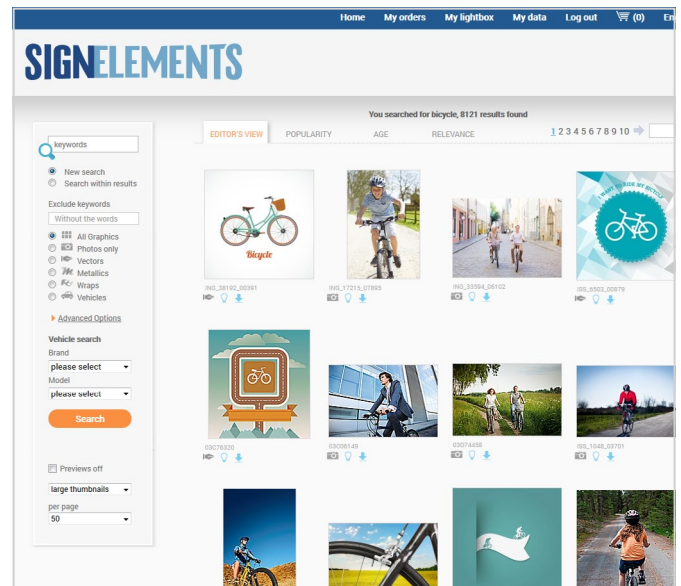

The SignElements website has now become an essential tool for us. We're constantly surprised at the scope and quality of the images available; all of them easy to download and of a size that means we can recreate them on large signs without any difficulty. The site is absolute value for money.

Matthew Bain, Creative Director, The Sign Factory

## Search Engine

Our search engine allows you to improve your productivity with fast, accurate searches and sophisticated filtering of results:

- Search by file type
- Search by black & white or color
- Search by orientation - landscape / portrait / square
- Choose large or small thumbnails
- Search to exclude specific keywords
- View similar images
- View more images from the same artist
- New drop down menu to find specific vehicles brands and models

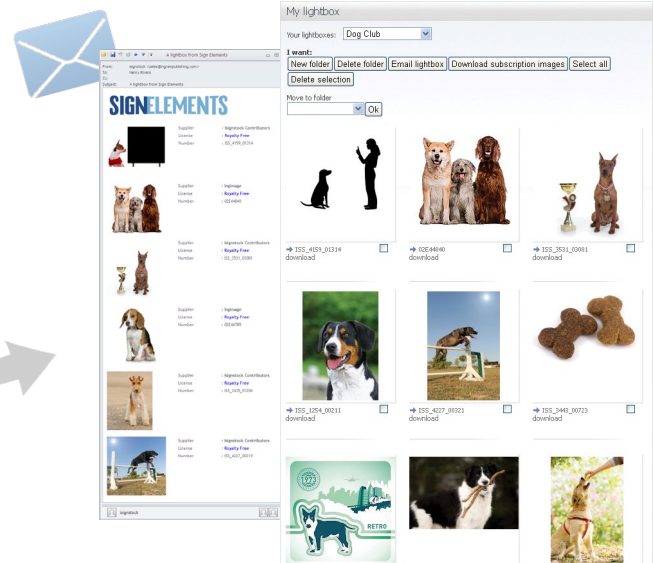

Example search: 'bicycle' ... 8121 results!

## Lightboxes

With SignElements you can organise your favorite images into online folders. Lightboxes are ideal for managing different projects and keeping a note of what you want to download later. Here's how you can use lightboxes:

- Add images directly from search results
- Download all lightbox images with one click
- Send your lightboxes as emails (looks great for clients!)
